CHEF'S VOICE: A NETWORK OF ACCESSIBLE RESTAURANTS

Chef's Voice is a web tool that enables the restaurant sector to be digitalised and shared, without forgetting the need for **universal accessibility**.

Through the creation of networks of establishments, the destination can share and promote them in different languages and guarantee visitors a digital, sustainable and safe alternative that is accessible to all.

Each establishment has its own QR code or access link, the activity of which is regularly monitored through the creation of statistical reports with usage patterns.

Characteristics of the tool:

- Geolocation
- Available in up to 14 languages
- Universal accessibility. Content to read and to listen to
- Simple, safe access with no advertising
- Allergen information
- Easy management from any device
- Sales thanks to the orders and deliveries gateway (optional and free)
- A range of designs
- Easy to share on social networks and other promotional media

Chef's Voice is a tool for fostering universal accessibility and its management, thus promoting the destination's competitiveness.

Scope of smart destination application

**Technology
