

Dedicated accessible tour through the city; Padua: Padua has designed an accessible tourist itinerary, especially for those with physical disabilities. The tour includes a 2.5 km route that can be done on foot or with mobility aids such as wheelchairs.

Exploration made barrier free; Venice:

The city has introduced an “itinerary without barriers”, an itinerary to explore and experience the city specifically designed for wheelchair users visiting Venice. These itineraries take the visitor throughout Venice along specifically designed and accessible routes for wheelchair users offer suggestions on visiting the city despite the obstacles that it's the city with all its bridges entail. These routes and itineraries have been designed by the Office for the Elimination of Architectural Barriers of the Municipality of Venice and have been created in collaboration with resident with limited mobility living in the city. Through this collaborative process, Venice has taken the residential experience as a platform for creating a better tourist experience for everyone.

4.1.1.3 Accessible infrastructure; Bordeaux; Dublin; Genoa; Ljubljana; Szczecin; Venice

Accessible transport system; Bordeaux: Bordeaux's public transport network is 100% wheelchair accessible, thanks to large sliding doors, step-free access and reserved spaces. In the city, the creation of a pedestrian GR-accredited circuit follows the same dynamic. The network of footpaths runs for 160 km through the suburbs and green spaces. It is
