

revitalise these spaces. The cultural centre gnraton is a space for creation, performance, and exhibition in the field of contemporary music and the relationship between art and technology. By adopting a sustained strategy, always open to the community, it intends to confirm its status as a unifying pole for cultural and creative dynamics, making it a space oriented towards educating and raising awareness in a new audience, demonstrating artistic practices relevant from a contemporary and cosmopolitan perspective. The cultural schedule of gnraton is founded on two fundamental pillars, which can be viewed independently or jointly. Contemporary music and the relationship between art and technology are central to the programme, whether the profile is performance, exhibition, or education. Also operating inside this space is Startup Braga, a corporate incubator which seeks to foster and encourage entrepreneurship in the city and has the municipality's support. Today, the Theatro Circo is a really dynamic cultural broadcasting centre, time and again exceeding the target of 100,000 spectators to become a geographical hub.

4.4.2.5 Caravan tourism on the rise; Gaziantep

Caravan tourism and camping in and around Gaziantep have become increasingly popular since the start of the pandemic. The municipality, which has made an important breakthrough in this area, ensured that the city is safe for caravan tourism. The caravan parking lot and residential area, one of the city's most important projects implemented during the pandemic, provide safe and enjoyable travel opportunities for all – domestic as well as foreign visitors. This situation has directed the route of the visitors towards the Southeast of Turkey to Gaziantep in order to enjoy caravan tourism activities there. Not only do visitors enjoy a tourist attraction that can operate despite the pandemic, but also the local community can benefit from the visitors.
