BUS OPERATIVE

Bus Operative has been developed taking into account the present and future needs of customers and end-users when using a tour bus. It is a complete **smart travel system** comprised of three modules aimed at covering specific needs: Bus2Monitor in the company, Bus2App for the passengers and Bus2OnBoard for the bus drivers.

Some of the **advantages** of Bus Operative are:

- It provides information about timetables, stops, routes, etc.
- Users will be able to see where they are in the city at any time, as well as the experiences and events going on around them.
- Users can also find out how far away the nearest bus stop or bus is.
- Operation planning (routes, schedules, stops, etc.)
- Real-time operation management

Moreover, Bus Operative is currently active in Spain and abroad, in locations such as:

- Dubai
- Seville
- Malaga
- New Orleans
- Cordoba
- Palma de Mallorca

Scope of smart destination application

Technology

Solutions for destinations in the following areas
