

Barrier-free architecture; Genoa: The goal of the city is to enable everyone to participate fully in all aspects of life. As a measure to ensure equal access to the physical environment, transport, information and communication, Genoa's administration has implemented PEBA – the Plan for the Elimination of Architectural Barriers. The PEBA analyses the municipal area from the point of view of motor and sensory accessibility, dividing it into 94 Areas, i.e. portions of the territory where public functions of importance and interest for the citizen are concentrated, returning a map with 4 colors depending on the degree of presence or absence of architectural barriers: green (accessible), yellow (partially accessible), orange (partially inaccessible) and red (inaccessible). A very important aspect to underline is that Genoa is the first Italian city with a totally georeferenced PEBA and with data free and accessible to all on dedicated portals (open data). For tours and maps, the relative level of accessibility has been indicated for the main points of interest in Genoa, such as monuments, museums, universities or historical shops. And five accessible “thematic itineraries” have therefore been identified: Art and culture, Education, Free time, Business, Other Paths.

User-friendly and disabled-friendly transportation; Ljubljana: For physical accessibility, Ljubljana's city buses are especially user-friendly for people in wheelchairs, with other disabilities and children in strollers. Besides installed ramps and reader boards on most of the buses, audio announcements help tourists and visitors to identify their stop. Additionally, six electric vehicles (“Kavalirs”) have been introduced in the city center for the elderly and disabled

and offer free rides. An emission-free urban electric train also enables disabled people to travel to main attractions while listening to audio guides. The latest addition to a user-friendly experience for people in wheelchairs is the free rental of two electric attachments allowing a more comfortable sightseeing experience. Attachments can be rented at the
