# LOOKISH SPAIN 360° VIRTUAL REALITY TOUR- IST GUIDE WITH INTERACTIVE MAP

LOOKISH SPAIN is the world's first **tourist guide to use 360° virtual reality**, including interactive maps. Using 360° photography, it creates a photographic report of the points of interest or tourism businesses, and creates a virtual tour for each one.

The app, which scarcely occupies 10 MB of disk space, is downloaded in under two minutes and provides all the necessary information on any destination and its tourism businesses.

It is **available for any mobile platform**, iOS or android. The tours included are compatible with virtual reality glasses.

The app enables the creation of efficient routes, selecting the points to visit and even links for booking and purchasing admission tickets from the tourism point or business. It also acts as a guide during the trip via Google Maps, and allows the user to comment on their experience and share it on any social network, messaging service or via email.
