## MAP'S VOICE. ACCESSIBLE INFORMATION POINT

Map's Voice is an **inclusive web service** that allows relevant, extensive information about any service, product, local route or route abroad and different places of interest to be shared and made accessible to everyone. This could be anything from a bus route or natural footpath to the digitalisation of leaflets and guides.

- Easy to access and share via a QR code or link, with no need for an app
- Universal accessibility. Access to information in text, audio, sign language and/or easy-read format
- Geolocation of resources situated en route

- Multiple different combinations of content with tactile-visual maps and 3D designs
- Available in up to 14 languages
- Usage statistics and data interpretation
- Compatible with any device (Android and iOS)
- Facilitates the achievement of the 2030 Sustainable Development Goals
- Updates in real-time.
- With Map's Voice, it's possible to offer all kinds of information in an inclusive way, with the opportunity to combine it with tactile-visual maps.

Scope of smart destination application

**Accessibility
