# INSUIT

inSuit is a solution that improves **web accessibility and usability** in a simple manner. This is a platform that adds a layer of information to websites based on the W3C international accessibility standards, customised by experts in accessibility and usability, and a series of tools for accessible browsing (technical support). Among other awards, the inSuit platform received the Queen Letizia Prize for Accessibility Technology, and was a finalist in the international Tourism for Tomorrow Awards.

inSuit:

- Enables automatic compliance with many **W3C** recommendations regarding web accessibility
- Provides access to tools in the cloud so that everybody can **browse in a way that is adapted to their needs** and preferences
- Enables compliance with Royal Decree 1112/2018 on web accessibility, together with its **inSuit 360** service.
