KAIROS365 SCH – BOOKING, APPOINTMENT AND TICKET SALES PLATFORM

Kairos365 SCH is a comprehensive operations management platform where appointment scheduling, booking and ticket sales are a fundamental and strategic part of the project. It is an online and multi-vertical platform, endorsed by the markets thanks to successful implementations for more than 10 years in government, health, insurance, banking and telco projects.

Kairos365 SCH is conceived not only for companies and public administrations, but also offers unique advantages for citizens. The application allows customers to locate a professional or company (administration, tourism, culture, etc.), check availability in real time and make an appointment on the spot from web environments and apps.

Kairos365SCH works at any time and from any connected device. It has a payment gateway incorporated for selling admission tickets or charging the user a fee associated to the event or activity so they can make an appointment or booking.

Kairos365 SCH is a flexible and easily scalable platform that integrates, among others, with CRM, ERP, facial recognition software, temperature control and access solutions thanks to a powerful integration API.
